

Creation Care

From the Book of Discipline of the United Methodist Church:

"All creation is the Lord's, and we are responsible for the ways in which we use and abuse it. Water, air, soil, minerals, energy resources, plants, animal life, and space are to be valued and conserved because they are God's creation and not solely because they are useful to human beings. God has granted us stewardship of creation."

Vision Statement:

We accept the stewardship that has been granted us, to responsibly use, protect and support the healing of God's creation.

Mission Statement:

To seek and embrace changes that support a more ecologically equitable and sustainable world.

With scripture and Christian doctrine as our guide, we can pursue ways to participate in God's healing of creation by learning and pursuing personal and corporate changes in our everyday activities.

St. Mark's Activities:

On **November 15**—join the effort by recycling in your home, business, or right here at St. Mark's UMC. Look for the blue bins around our campuses!

How we recycle at St. Mark's UMC:
